PROFESSIONAL SUMMARY

Proactive and detail-oriented Data Science graduate skilled in data analysis, machine learning, and visualization. Eager to leverage technical expertise and passion for learning to contribute to organizational success.

EDUCATION

Bapatla Engineering College — B.Tech in Data Science | CGPA: 8.46 | 2020–2024| Bapatla, Andhra Pradesh.

Narayana Junior College — Intermediate (MPC) | CGPA: 8.98 | 2018–2020| Vijayawada, Andhra Pradesh.

Ravindra Bharathi School — 10 th Class| CGPA: 9.5 | 2017–2018 | Vijayawada, Andhra Pradesh.

SKILLS

- **Technologies:** Data Analysis, Machine Learning, Deep Learning, Natural Language Processing, RAG, Open Source LLM's.
- **Programming Languages:** Python, SQL.
- **Tools & Modules:** Power BI, Scikit-Learn, Pandas, NumPy, Matplotlib, Seaborn, Plotly, Keras .

PROJECTS

- **Chatbot Using LLM (Dec 2024):** Developed a Flask application showcasing text and image captioning using Microsoft's Phi-3.5 and Salesforce's BLIP models using Hugging Face Transformers.

- **AWS Review Analysis (Dec 2024):** Conducted sentiment analysis on AWS reviews using NLP techniques to classify sentiments, aiding customer insights.

- **Resume Analysis with LlamaIndex (Nov 2024):** Automated resume parsing and candidate assessment using large language models(OPEN AI) and structured data integration.

- **Milk Price Prediction (Oct 2024):** Built regression models to predict milk prices based on dairy farm records, improving pricing strategies.

- **Chronic Kidney Disease Classification (Jan–Apr 2024):** Developed a machine learning model for early CKD detection, aiding healthcare diagnosis and management.

INTERNSHIPS

- **Data Science Intern — Oasis Infobyte Solutions Pvt. Ltd. (Aug–Sep 2023):** Built car price prediction models using Python and Scikit-Learn.

- **Data Analytics Virtual Intern — Accenture (Jul 2023):** Gained practical experience in data visualization and analytics workflows.

- **Artificial Intelligence Intern — Spypro Security Solutions Pvt. Ltd. (May–Jun 2023):** Developed CIFAR Object Regression models using deep learning.

CERTIFICATIONS

- **Microsoft:** Introduction to Programming Using Python (MTA) | **Cisco Network Academy:** Python Essentials 1

- **NPTEL:** Data Analytics with Python, Python for Data Science | **HP Life:** Data Science & Analytics

- **Infosys Springboard:** Python for Data Science | **IBM Skills Build:** AI Fundamentals

LANGUAGES & HOBBIES

- **Languages:** English, Telugu
- **Hobbies:** Playing cricket, listening to music
